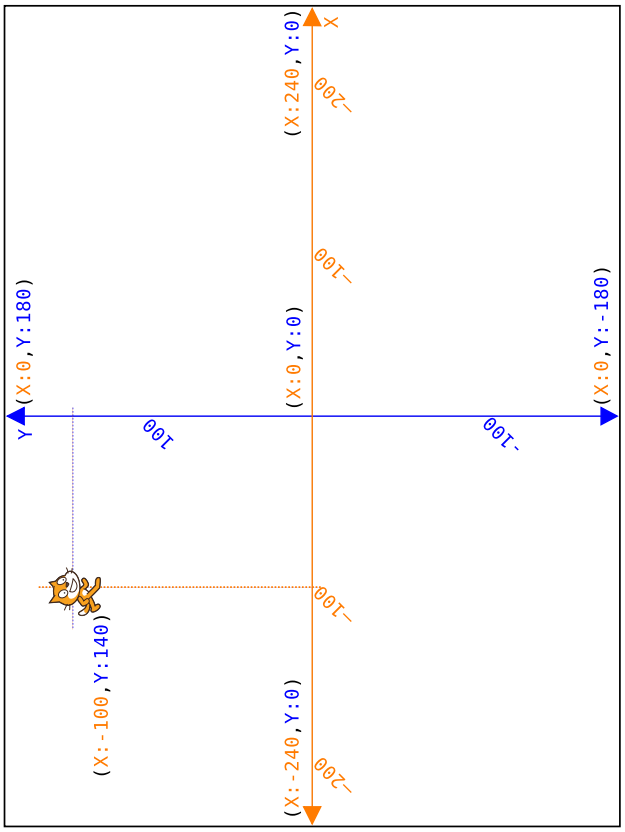
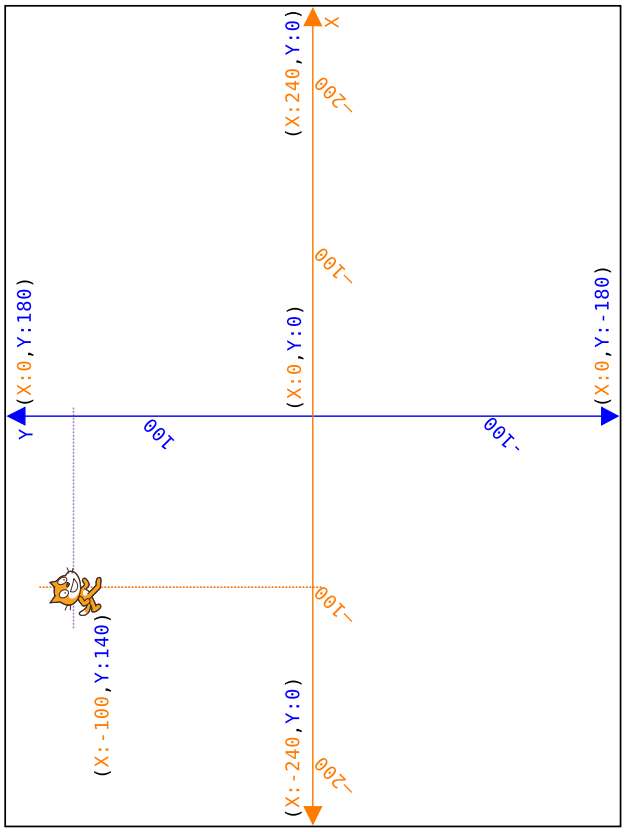
Find out where you are.



X and Y coordinates

Find out where you are.



X and Y coordinates

Get ready

In the Status Bar you can see where you are. The center is x:0, y:0.

Try this code

Try out a few commands that set the position of your sprites.

Extra tip

When working with coordinates, you can change the backdrop to the "xy-grid" you'll find in the "Other" category.
