X and Y coordinates
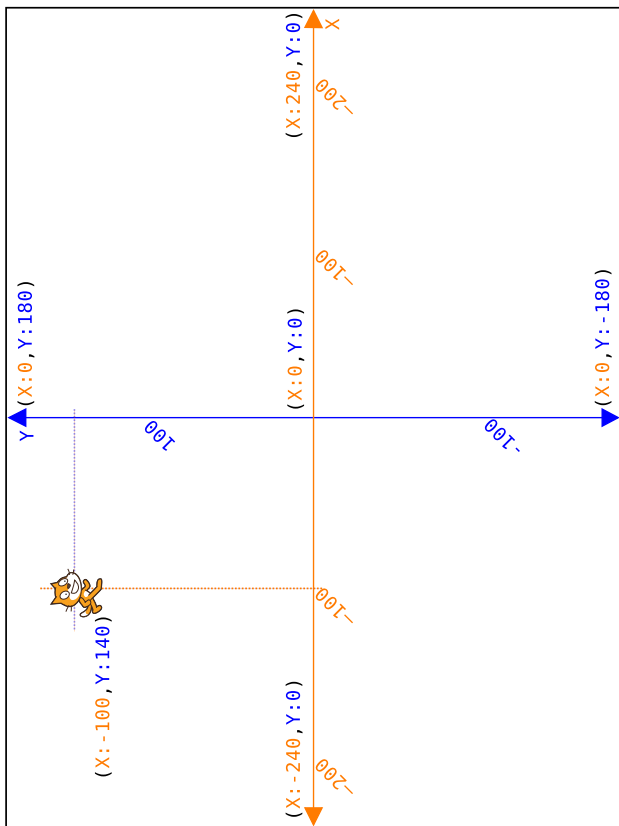

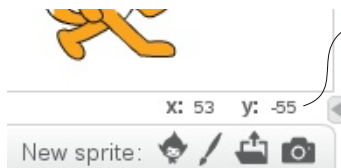

Find out where you are.
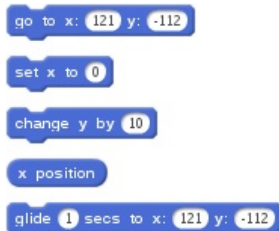

X and Y coordinates

In the Status Bar you can see where you are. The center is x:0, y:0.

`x: 53  y: -55`

New sprite:

```
go to x: 121 y: -112
```

```
set x to 0
```

```
change y by 10
```

```
x position
```

```
glide 1 secs to x: 121 y: -112
```

Try out a few commands that set the position of your sprites.

Stage
1 backdrop

New backdrop:

When working with coordinates, you can change the backdrop to the "xy-grid" you'll find in the "Other" category.
