X and Y coordinates
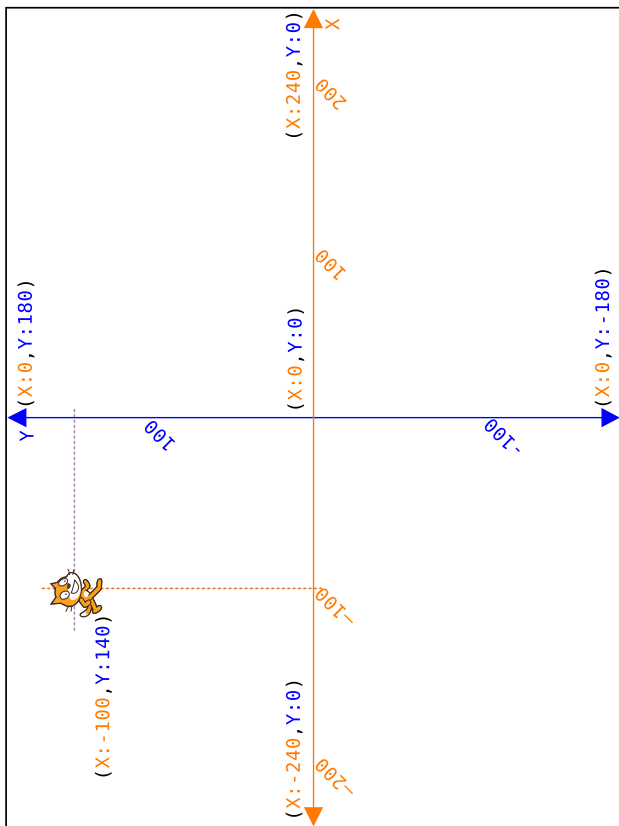

Find out where you are.

X and Y coordinates

x: 53   y: -55

New sprite:

In the Status Bar you can see where you are. The center is x:0, y:0.

go to x: 121 y: -112

set x to 0

change y by 10
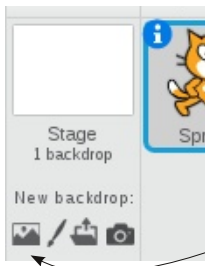

x position

glide 1 secs to x: 121 y: -112

Try out a few commands that set the position of your sprites.

Stage
1 backdrop

New backdrop:

When working with coordinates, you can change the backdrop to the "xy-grid" you'll find in the "Other" category.
